

Paperless listing documents have been fully implemented

The requirements for printed form listing documents as well as the physical display of documents are out-of-step with changes in the availability and usage of the internet and Hong Kong and overseas regulators generally allow these documents to be made available electronically or online. As a result, the Stock Exchange amended the Listing Rules, to require all listing documents in new listing to be published only in electronic format and application for subscriptions to be made through online electronic channels only. The existing requirements for display physical versions of certain documents will be changed to online publication, and the types of documents that must be displayed for notifiable transactions and connected transactions will also be reduced. The above amendments will take effect on July 5, 2021 and October 4, 2021, respectively.

Printed documents are only a small part of the functions of financial printers. The new listing requirements do not have a negative impact on us, and we are able to focus more on important tasks in other areas of the listing project, which would further improve the overall work and service efficiency.

Our Core Tasks

Under the new trend of going paperless, financial printer still plays an indispensable role.

Moreover, we are pleased to invite an internationally recognized investment banking team to share professional information of warrants with us. Stay tuned for our next featured topic.
